## **Administrative Analyst III**

### **JOB SUMMARY**

Performs a variety of professional, technical, analytical and administrative functions in the support of City and departmental operations and services. Duties assigned to this classification emphasize research and analysis and development of recommendations in areas such as budget development, financial analysis, organizational analysis, internal audit, service delivery, and public policy. Provide highly responsible and complex administrative support to City management.

### **SUPERVISION RECEIVED AND EXERCISED**

Works under the general supervision of a higher level professional employee in a managerial classification.

The Administrative Analyst 3 level will exercise supervisory and/or lead direction over lower classifications or temporary employees.

### **DISTINGUISHING FEATURES**

The Administrative Analyst classification is distinguished from the Management Analyst classification by performing less complex financial, budgetary and project management assignments. This classification is required to work independently with little supervisory direction, exercise independent judgment, perform technical program analysis, and solve complex and technical problems. The duties of the Administrative Analyst are typically focused on a specific program area, whereas the duties of the Management Analyst are typically focused on department wide programs.

Assignments at the Administrative Analyst III level are characterized by expert competence in and assigned responsibility for a professional discipline or specialization with broad organizational impact and by the supervision that is exercised at this level. Analysts at all levels may provide technical or functional direction to lower level technical or clerical classes.
