KEEP SALEM MOVING!

City of Salem November 2008 Streets and Bridges General Obligation Bond Measure
Total Proposed Bonding Authority: $99.8 million

Project Summary:

Pedestrian, Bicycle, and Transit Accessibility and Safety Projects

Project Description:

Construct Missing Sidewalks and Bicycle Lanes to Schools and Parks
Construct missing sidewalks and bicycle lanes on City streets, with priority given to streets serving as important routes to schools and parks. Projects to be approved by Council through a competitive prioritization and selection process.

Install Pedestrian Crossing and Traffic Calming Measures
Construct pedestrian crossings on streets serving as important routes to schools, parks, shopping, transit services, and other activity centers. Install traffic calming measures on local residential streets where warranted to reduce speeding and cut-through traffic in neighborhoods. Projects to be approved by Council through a competitive prioritization and selection process.

Install Core Area Transit and Pedestrian Curb Extensions
Install curb extensions on streets in the core area of Salem to better facilitate pedestrian safety and access to transit buses. Projects to be approved by City Council selection process.

Estimated Project Costs:

$2,262,000 Total (constructed)
- $1,213,000 Construct Missing Sidewalks and Bicycle Lanes
- $581,000 Pedestrian Crossings and Traffic Calming
- $468,000 Transit and Pedestrian Curb Extensions
