City Council of Salem:

The cost of keeping the pools open will be paid many times over with other expenses: child obesity, police/vandalism problems, etc. What's a community without a community pool? Not only children, but the whole community benefits. Business and community leaders should be supportive of keeping the pools open to protect our community. I have been getting emails and notices about this from multiple different sources, so the issue is widely and deeply felt. Please get creative and keep the pools open.

Julie Bingham, Ph.D.

Licensed Clinical Psychologist, Salem
