Chemeketa Parkade Facade Removal Project

Salem, OR - September 9, 2004. The City of Salem's Facilities Division in conjunction with the Urban Renewal Division and General Contractor, Western Waterproofing Company Inc., will be implementing the Chemeketa Parkade Facade Removal Project starting September 10, 2004. The project will include the removal of the Facade, which is the freestanding wall composed of an Exterior Insulation Finish System (EIFS), associated steel support and masonry elements located on the exterior of the east side of the Chemeketa Parking Structure. Also included is the repainting of the parking garage east exterior surfaces and wall/ceiling over Chemeketa Street including associated cleaning, patching and joint seal replacement, removal and replacement of mezzanine walkway lighting. The project is expected to be completed by November 12, 2004. Information and questions regarding the project can be obtained by calling (503) 588-6178 ext. 7555.
