DECISION OF THE HISTORIC LANDMARKS COMMISSION

HISTORIC DESIGN REVIEW CASE NO.: HIS19-11

APPLICATION NO. : 19-106988-DR

NOTICE OF DECISION DATE: JUNE 21, 2019

SUMMARY: A proposal to install new fencing, and repair and replace existing non-original doors and siding on the exterior of the Kimball House (1910).

REQUEST: Major Historic Design Review of a proposal to install new fencing, and repair and replace existing non-original doors and siding on the exterior of the Kimball House (1910), an individually listed Local Landmark in the RM2 (Multiple Family Residential) zone, and located at 1075 Capitol Street NE - 97301 (Marion County Assessor Map and Tax Lot Number: 073W23CA10100).

APPLICANT: Christopher and Jaqualine Bechtel

LOCATION: 1075 Capitol St NE

CRITERIA: Salem Revised Code (SRC) Chapter 230.065

FINDINGS: The findings are in the attached Decision dated June 20, 2019.

DECISION: The Historic Landmarks Commission APPROVED Historic Design Review HIS19-11 based upon the application materials deemed complete on May 30, 2019 and the findings as presented in this report.

VOTE:

Yes 7  No 0  Absent 2 (Sund, Maglinte-Timbrook)

Jamie French, Chair
Historic Landmarks Commission

This Decision becomes effective on July 9, 2019. No work associated with this Decision shall start prior to this date unless expressly authorized by a separate permit, land use decision, or provision of the Salem Revised Code (SRC).

The rights granted by the attached decision must be exercised, or an extension granted, by July 9, 2021 or this approval shall be null and void.
Application Deemed Complete: May 30, 2019
Public Hearing Date: June 20, 2019
Notice of Decision Mailing Date: June 21, 2019
Decision Effective Date: July 9, 2019
State Mandate Date: September 27, 2019

Case Manager: Kimberli Fitzgerald, kfitzgerald@cityofsalem.net, 503-540-2397

This decision is final unless written appeal from an aggrieved party is filed with the City of Salem Planning Division, Room 305, 555 Liberty Street SE, Salem OR 97301, no later than 5:00 p.m., Monday July 8, 2019. Any person who presented evidence or testimony at the hearing may appeal the decision. The notice of appeal must contain the information required by SRC 300.1020 and must state where the decision failed to conform to the provisions of the applicable code section, SRC Chapter 230. The appeal must be filed in duplicate with the City of Salem Planning Division. The appeal fee must be paid at the time of filing. If the appeal is untimely and/or lacks the proper fee, the appeal will be rejected. The Hearings Officer will review the appeal at a public hearing. After the hearing, the Hearings Officer may amend, rescind, or affirm the action, or refer the matter to staff for additional information.

The complete case file, including findings, conclusions and conditions of approval, if any, is available for review at the Planning Division office, Room 305, City Hall, 555 Liberty Street SE, during regular business hours.

DECISION OF THE SALEM HISTORIC LANDMARKS COMMISSION

CASE NO. Historic Review Case No. HIS19-11

FINDINGS: Based upon the application materials, the facts and findings in the Staff Report incorporated herein by reference, and testimony provided at the Public Hearing of June 20, 2019, the Historic Landmarks Commission (HLC) finds that the applicant adequately demonstrated that their proposal complies with the applicable provisions of the Salem Revised Code (SRC) 230.065 as follows:

Criteria 230.065 Guidelines for Historic Contributing Buildings

FINDINGS

(a) Except as otherwise provided in this Chapter, the property shall be used for its historic purpose, or for a similar purpose that will not alter street access, landscape design, entrance(s), height, footprint, fenestration, or massing.

Finding: The HLC finds that the property shall continue to be used as a residence, its historic purpose. The height, massing, and building footprint will not be altered. The fencing is not attached to any portion of the historic resource, and the driveway gate will be installed across an existing driveway at the rear of the resource, but will not alter street access. The HLC finds that this guideline has been met.

(b) Historic materials, finishes and distinctive features shall, when possible, be preserved and repaired according to historic preservation methods, rather than restored.

Finding: The HLC finds that no original historic materials are proposed for repair or restoration, therefore this Guideline does not apply to the evaluation of this proposal.

(c) Distinctive stylistic features or examples of skilled craftsmanship significance shall be treated with sensitivity.

Finding: The HLC finds that the applicant is not proposing to alter any distinctive features or examples of skilled craftsmanship as a part of this proposal, therefore the HLC finds that this Guideline is not applicable to the evaluation of this proposal.

(d) Historic features shall be restored or reconstructed only when supported by physical or photographic evidence.

Finding: The HLC finds that the proposed removal of the plywood and replacement with cedar shingling will serve to restore the exterior appearance of the siding and matching the existing shingling on the exterior of the Kimball House, therefore the HLC finds that this Guideline has been met.
(e) Changes that have taken place to a historic resource over the course of time are evidence of the history and development of a historic resource and its environment, and should be recognized and respected. These changes may have acquired significance in their own right, and this significance should be recognized and respected.

Finding: The HLC finds that the applicant is not proposing to alter any aspect of the resource or site that has acquired historic significance, therefore the HLC finds that this Guideline is not applicable to the evaluation of this proposal.

(f) Additions and alterations to a historic resource shall be designed and constructed to minimize changes to the historic resource.

Finding: The HLC finds that the non-historic plywood will be removed and replaced with cedar shingling to match the exterior of the resource, restoring the exterior siding of the Kimball House. The fencing is not attached to the resource, and does not adversely impact any historic features. Door A, while in good condition, is not original to the structure and due to the extensive pane of glass at the center of the door, causes security issues, therefore the applicant proposes to replace this front door with a new wooden door. Door B is also not original to the structure and is warped and not repairable, and the applicant is proposing to replace it with a salvaged door. Door C is an interior door in poor condition which the applicant is also proposing to replace with a salvaged door. All three doors will be installed within the existing openings. The HLC finds that the proposed alterations to the resource and the site minimize changes to the Kimball House and SRC 230.065(f) has been met.

(g) Additions and alterations shall be constructed with the least possible loss of historic materials and so that significant features are not obscured, damaged, or destroyed.

Finding: The HLC finds that the applicant has requested approval for the fencing that has been installed on the site to encompass the northern, eastern and rear (western) end of the property to address security issues on the site. The fencing is not attached to the resource directly, and at the height of 30”, no portions of the house are obscured by the fencing. The proposed removal of the plywood and replacement with cedar shingling will serve to restore the exterior appearance of the siding. The replacement of the non-original doors with new and salvaged doors within the existing openings will not damage or destroy any significant features of the Kimball House, therefore the HLC finds that SCR 230.065(g) has been met.

(h) Structural deficiencies in a historic resource shall be corrected without visually changing the composition, design, texture or other visual qualities.

Finding: The applicant's proposal does not include any plans to correct structural deficiencies, therefore the HLC finds that this Guideline is not applicable to the evaluation of this proposal.

(i) Excavation or re-grading shall not be allowed adjacent to or within the site of a historic resource which could cause the foundation to settle, shift, or fail, or have a similar effect on adjacent historic resources.

Finding: The applicant is not proposing to excavate or regrade the site as part of this proposal,
therefore the HLC finds that Guideline 230.065 (i) is not applicable to the evaluation of this proposal.

**DECISION:** The Historic Landmarks Commission **APPROVES THE PROPOSAL.**

**VOTE:** Yes 7  No 0  Absent 2 (Sund, Maglinte-Timbrook)  Abstain 0

Prepared by Kimberli Fitzgerald, Historic Preservation Officer
This is a large two and one-half story structure with overtones of the Colonial Revival architectural style. It has an unusual gable-on-hip roof with a front projecting gabled dormer, a small bay in the second floor center, and a hipped roof central porch supported by slender columns. The door is flanked by a multipaned sidelight on one side only. The windows are symmetrically placed 12-over-1 double-hung. Large scrolled brackets support the roof.

SETTING: house faces east on south-west corner of Capital and Belmont Streets; both are busy streets; residences and offices adjacent; parking in rear.

STATEMENT OF SIGNIFICANCE (Historical and/or architectural importance, dates events, persons, contexts)
Early documentation of this house was difficult to find. In 1940 Sahara Kimball owned the property; other residents were Karl and Hazel Kugel. During the mid-1940s Mr. Kugel apparently operated the Salem Travel Agency from the house; about 1950 he moved the travel agency to 153 High Street. In the mid-1950s the property was purchased by Stuart and Helen Sharpnack; Mr. Sharpnack was employed by Campus Crusade. The property was acquired by the State in 1957 and was rented as a residence for some time. Tenants in the early 1960s were Howard Akers and wife; Mr. Akers was director of the Salem Extension Center. At that time the house was divided into three apartments. The house was moved to its present site in 1990.

Hinges/Kimball, 1075 Capitol Street NE in Grant (LL)

This 1926 Bungalow-Colonial Revival house was originally located in "Piety Hill", the residential area of four blocks that was transformed into the North Capitol Mall between 1937-52. The Kimball House, as it was known, was located at the corner of Summer and Chehalem. Before the Kimballs, the house was occupied by the Hinges family. The daughter, Hallie Parrish Hinges (1868-1950), was a noted vocalist in Salem, "The Oregon Nightingale". Her mother was the daughter of Josiah Parrish, a Salem pioneer. The house was first moved to 735 Capitol St. and was used as state offices. When the state required that property for the expansion of the North Capitol Mall in the 1980s, this Local Landmark was moved to the present location and is now owned privately. Additional photograph and Information.

(Grant)

This 1910 Bungalow-Colonial Revival home stood at the former 295 Summer Street (lawn in the center of the Mall today) until moved in 1940s for construction of the North Capitol Mall. It was originally the home of the Hinges family. The daughter, Hallie Parrish Hinges (1868-1950) was a well-known vocalist in Salem, being declared by Pres. Teddy Roosevelt during his visit here in 1903 as the "Oregon Nightingale". After 1926 it was owned by Samuel and Sara Kimball.

The 1940s move of the Hinges/Kimball home by the state took it to 735 Capitol Street to be used as an office building. (Today the lawn area south of the Archives Building.) It was photographed in 1978 by Bob Koval. It remained here almost 50 years until the late 1990s when it was moved again for the Archives construction. It was placed three blocks further north on Capitol Street.

Project Description

Briefly provide an overview of the type of work proposed. Describe how it meets the applicable design criteria in SRC Chapter 230. Please attach any additional information (i.e., product specification sheets) that will help staff and the HLC clearly understand the proposed work:

Replace plywood siding w/ matching cedar shingles
Build wood fence around entire perimeter of property
Replace exterior side door
Add storm windows throughout
Window repair
Repair front porch rail

Front door repair or replacement
Add window screens
