

QUALITY OF LIFE

I - Public Safety

COUNCIL POLICY NO. I-1

TITLE: REQUIRED LOCATION FOR FIRE HYDRANTS

POLICY: The City shall maintain fire protection services capable of receiving favorable rates for the City's property owners. Insurance rates are based on periodic inspections of the city's fire protection by the Insurance Services Office (ISO). A major criteria for low rates is the fire hydrant distribution and capability of the hydrant system to provide adequate water.

REFERENCE: The Standard Schedule for Grading Towns and Cities of the United States with Preference to Their Defenses and Physical Conditions - Insurance Services Office. (Old Council Policy No. 23)
