

Commute Expense Reimbursement Account (CERA) Policy

The Commute Expense Reimbursement Account (CERA) is allowed under the Transportation Equity Act for the 21st Century and is regulated by the IRS. Employees who pay to commute to work have the opportunity to set aside a portion of their salary to pay for certain qualified transportation expenses. The employee will not be taxed on amounts set aside and used for qualified expenses.

The City of Salem Commute Expense Reimbursement Account (CERA) is self-administered by the City of Salem and not part of our current 125 cafeteria plan Flexible Spending accounts, although it is similar in nature. When you participate in the CERA program, your state, federal and Social Security taxes are based on your salary after the CERA deduction has been made. This means you will report a smaller income, so you will be paying fewer taxes. These CERA deductions, however, do not decrease your Public Employment Retirement System (PERS) contributions or the amounts of disability income for which you may be eligible. Those earnings are based on gross earnings before the CERA deduction. Employee's future social security benefits may be slightly lower because the amounts set aside for the transportation costs are not subject to FICA tax. In most cases, the reduction in the social security wage base will have a minimal effect on future social security benefits.

Qualified Transportation Expense

- Van Pool – Any highway vehicle that seats at least six adults (not including the driver). In addition, at least 80% of the vehicle mileage will be for transporting employees between home and work.
- Mass Transit – The cost of transit passes for mass transportation to and from work. Qualified amounts include costs of any pass, token, fare card, voucher, or other item that entitles the employee to use mass transit for the purpose of traveling to or from his/her place of work.
- Parking – The cost of employee parking expense at or near the location from which the employee commutes to work by van pool or mass transit. **Does not cover the cost of parking at or near the employee's residence, City of Salem parking structures or lots.** (City of Salem parking is covered under another pre-tax program).

2019 CERA Contribution Limitations are set by the IRS and subject to change by the IRS

- Van Pool \$265.00 per month
- Mass Transit \$265.00 per month
- Parking \$265.00 per month

If I enroll in the CERA program, I understand and will agree to the below guidelines:

- I cannot deduct or claim credit on my income tax return for any of the expenses reimbursed through my CERA.
- That the only claimable expenses are those incurred after the effective date of my CERA.
- That I must submit claim reimbursement for eligible expenses incurred during the plan year (January-December) by March 31st of the following year, or I will forfeit those funds.
- That contributions to CERA automatically stop the first of any pay period I cease to receive earnings during unpaid leave, and deductions will resume when earnings are sufficient to cover the requested CERA contributions.
- To accept full responsibility if I request and receive reimbursement for an expense that is not allowed under IRS regulations.
- That salary reduction amounts will not be subject to Social Security (FICA) tax and may marginally reduce my Social Security benefit upon retirement.
- That the IRS and the City of Salem Commute Expense Reimbursement Account program governs the CERA program and that the CERA program offered through the City of Salem is subject to current government regulations and any future changes in the law.
- That the City of Salem reserves the right to cancel or modify the CERA program.
