## Oral Health, Total Health

- If you are diabetic or pregnant in your third trimester, the **Oral Health, Total Health program** offers more ways to care for your teeth and mouth and keep the rest of your body healthy, too
- Diabetes increases the risk of cavities, periodontal (gum) disease, tooth loss, dry mouth and infection
- Pregnant women who have periodontal (gum) disease are more likely to have a premature and underweight baby
- Added benefit of additional cleanings
- Easy to enroll

The flyer features the Delta Dental logo at the top left. The main heading is "Oral Health, Total Health" followed by "Dental benefits that protect more than just your smile". Below this, there are three sections: "If you're diabetic or pregnant in your third trimester", "If you have diabetes", and "If you're pregnant". Each section contains text explaining the health benefits of the program. On the right side, there are three photographs: a couple smiling, a woman with a child, and a woman in a purple shirt. At the bottom right, there is a "Sign Up Now!" button and a website URL "deltaoralhealth.com". The Delta Dental logo and "moda" logo are at the bottom left.
